# LUPIN FIBRE BOOST

*Complete, grain-free fibre mash that is low in sugar and starch and enriched with vitamins & minerals. Suitable for all horses and ponies including those prone to laminitis, metabolic conditions and ulcers.*

## PRODUCT FEATURES

Highly palatable and digestible fibre-based mash that provides cool, slow-release energy for horses across all disciplines and workloads

A complete feed designed to meet or exceed the NRC 'Nutritional Requirements for Horses' when fed at the recommended rate

Fortified with a premium vitamin & mineral mix to promote optimum health and wellness

Low sugar and starch feed (NSC 4.21%) that is suitable for horses and ponies prone to laminitis, ulcers, EMS, PPID and other metabolic conditions

Natural source of high-quality proteins and essential amino acids, including lysine and methionine to support health, topline building and recovery

High in natural super fibres and with added pre and probiotics to increase beneficial bacteria in the hindgut and promote gut health and function

Made from 100% Western Australian grown Lupins to support our local farming communities

# LUPIN FIBRE BOOST

## FEEDING GUIDE

**Dampened:** Add 1-part dry T&R Lupin Fibre Boost to a minimum of 2-parts water by dry weight and soak to the desired consistency. Always measure the dry weight of your Cubes prior to soaking.

**Soaked:** To aid hydration, increase the amount of water added to dry Cubes for a sloppier consistency. We recommend feeding Lupin Fibre Boost soaked for horses that suffer from choke.

*Lupin Fibre Boost can be made in advance. Store in the fridge, and feed within 24 hours of soaking.*

Body Weight (kg)	Rest to Light Work	Moderate Work	Hard Work
300-450kg	0.2kg - 0.5kg	0.75kg	1kg
450-550kg	0.4kg - 0.6kg	1kg	1.5kg
550-650kg	0.6kg - 0.8kg	1.25kg	1.75kg
650kg +	0.8kg - 1kg	1.5kg	2kg

- Kilograms per day for horses. Rates are a GUIDE ONLY.
- Adjust according to horse's size, condition, workload, quality of available hay/pasture. Feed in conjunction with quality roughage/other feedstuffs.
- Ensure clean, fresh water is available at all times.
- Always introduce a new feed to your horse's diet slowly over a period of 14-21 days to avoid digestive upsets.
- NOTE: total Lupin intake should not exceed 2kg/day for a 500kg horse

SOAK TIME

**THIS PRODUCT MUST  
BE SOAKED BEFORE  
FEEDING**

## TYPICAL INGREDIENTS

Lupin Hulls, traces of Lupin Kernels, Canola Meal, Vitamin & Mineral Premix, Dicalcium, Lysine, Methionine, Pre and Probiotics

## STORAGE INSTRUCTIONS

Store in a clean, dry place
